Laryngological operations and office-based surgery

May 4th - 6th, 2017

Department of Otolaryngology and
Head & Neck Surgery
FAU University of Erlangen - Nuremberg
Head: Prof. Dr. med. Dr. h.c. Heinrich Iro

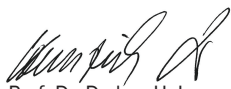

Dear colleagues,

the complexity and depth of procedures dealing with the larynx have grown significantly over the last two decades, making it difficult for practicing otolaryngologists to understand or to incorporate, these procedures into their practices. Therefore this course is designed to train practicing otolaryngologists and affiliated specialties in laryngeal procedures, dissection and surgical techniques.

We will cover office based procedures, endoscopic phonosurgery, and laryngeal framework surgery. Additional hands-on instruction in the cadaveric dissection laboratory will provide supervised practice of the breadth of laryngeal surgical procedures.

The format of this course will lend itself to small group, hands-on training with intimate feedback from the faculty to cover a large selection of laryngeal procedures.

We would be happy to welcome you in May in Erlangen

Prof. Dr. Dr. h.c. H. Iro

Prof. Dr. med. Christopher Bohr

Thursday May 4th, 2017

- 09:00 Registration
- 10:00 **Reception and Introduction**
Iro / Bohr
- 10:15 **Different laser colours in ENT**
Ernstberger
- 11:00 **Office based laser procedures**
Hess
- 12:00 **Office based Injection Laryngoplasty**
Bohr
- 12:30 **Lunch**
- 13:15 **CO₂ laser in laryngeal resection for microlaryngeal surgery**
Iro
- 14:00 **KTP laser in laryngeal resection for microlaryngeal surgery**
Weidenbecher
- 14:45 **Break**
- 15:15 **Demonstration office based KTP**
Hess
- 16:00 **Demonstration office based Injection Laryngoplasty**
Bohr / Weidenbecher
- 16:45 **Discussion**

Friday May 5th, 2017

- 09:00 **Treatment of laryngeal papillomatosis**
Weidenbecher
- 09:45 **Subjective & objective voice analyses**
Schützenberger / Dürr
- 10:30 **Break**
- 10:45 **Panel discussion: Treatment techniques in unilateral vocal fold paresis**
Hess / Bohr / Weidenbecher
- 11:45 **Glottic reconstruction**
Weidenbecher
- 12:15 **Lunch**
- 13:00 **Live demonstration Type I Thyroplasty and Epithelial ablation, Cordotomy**
Bohr / Hess / Weidenbecher
- 16:00 **Discussion**
- 19:00 **Course dinner**

Saturday May 6th, 2017

- 10:00 - 13:00
Cadaver dissections
